Sharff (807)

Kelin (835)

Karr (995)

Streltzi Regiment Kozadavlev (680)

Total: 6,016

Grand Total: 23,969

The actual strength of the Russian Army is difficult to pin down. Swedish sources give a strength of 40,000 - 50,000 men. The difference might be the large numbers of non-combattants who traditionally were a part of the Russian Army. There is also the tendency to exaggerate the strength of one's opponent in order to minimize a defeat or add more glory to a victory.
